- FRESNIUS Institute
- BREGAU Institute for applied environmental technology

CONSUMPTION

1lt/12-14m² of surface.

STORAGE

Store in places protected from frost for at least 36 months from production date.

SAFETY DIRECTIONS

The product needs no hazard labeling under current European and National legislation. However it is recommended to keep away from the reach of children. If swallowed, seek immediate medical advice and show the container or label.

PACKAGING

Carton box with 18 pcs of 750ml each one
5lt, 20lt containers
1,000lt tank (special order)

PROPERTIES

General purpose biodegradable cleaner, free of allergens, ammonia, phosphates and petroleum derivatives. Friendly to human and the environment, per the European directive EC 648/2004.

The specific directive governs the composition of detergents with respect to their biodegradability. It does not irritate hands and it does not cause any inhalation related problems during and after use (pic.2).

Product with superior cleaning action that does not affect sensitive surfaces. Spray once and within a few minutes remove fats, and scum built up, as well as salts, wine, and coffee, oil etc.

APPLICATIONS

Suitable for domestic and professional

use. BIOCLEAN is ideal for tiles, and granite, sinks, and vinyl tubs, as well as benches and kitchenware. Use it to clean refrigerators and painted walls, furniture as well as carpets (pic.1), and solar water heater panels (pic.3). It is also ideal for removing dirt and stains in places such as dairy plants and slaughter houses as well as poultry, fish, and food processing plants.

USE

Spray the areas you want to clean and wait for a few minutes. Rinse with water or, where necessary, scrub with a broom or a damp sponge. Use it also as an effective additive for mopping; dissolve 2 cups of cleaner into 3lt of water. It can be used in combination with a cleaning machine, a professional or a residential one.
